

Recognition of foreign professional qualifications*

(Results of the BIBB Recognition Monitoring Project)

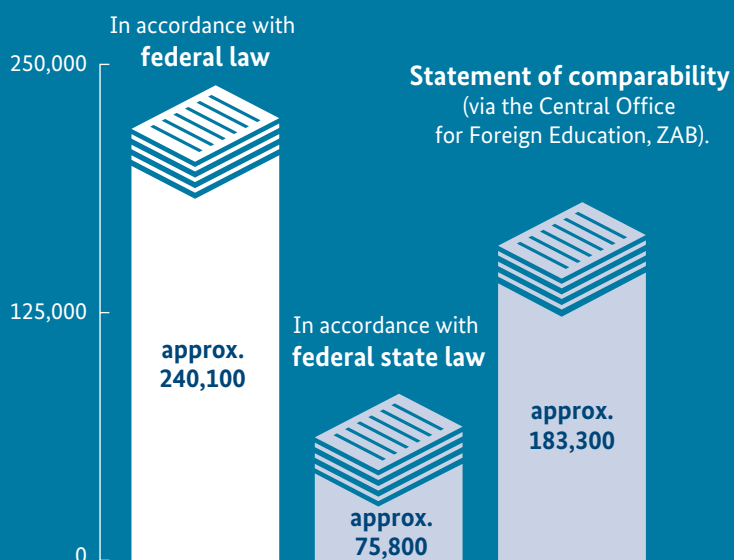

Applications by countries of training 2012 bis 2021

- 0 – 500 applications
- 501 – 1,000 applications
- 1,001 – 2,000 applications
- 2,001 – 5,000 applications
- more than 5,000 applications

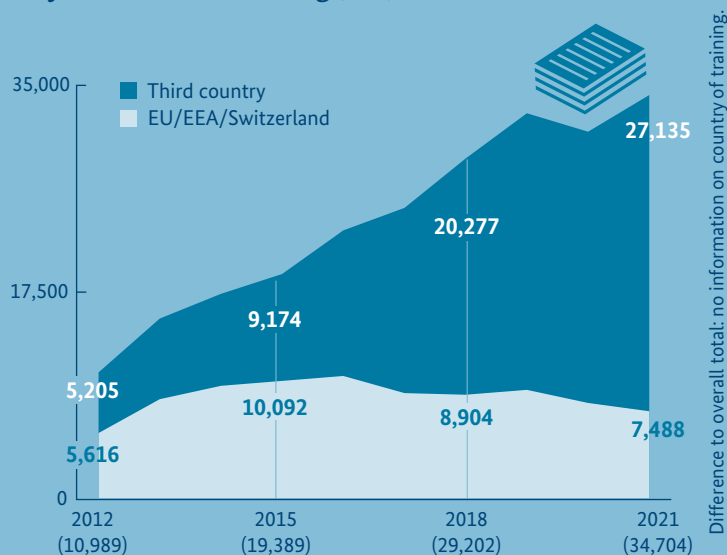

Recognition in accordance with federal law/federal state law and statement of comparability

Around 500,000 applications 2012–2021

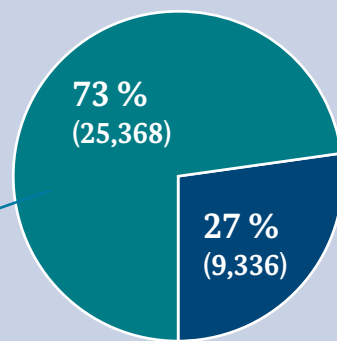

A recognition procedure is conducted in accordance with federal or federal state law depending on the profession. A ZAB statement of comparability may also be carried out for non-regulated higher education qualifications.

Applications in accordance with federal law 2012–2021 – by countries of training (cat.)

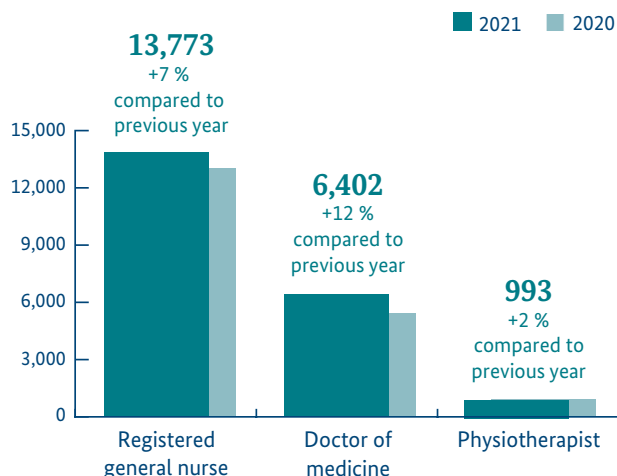

34,704 applications
in 2021, of which ...

Regulated professions

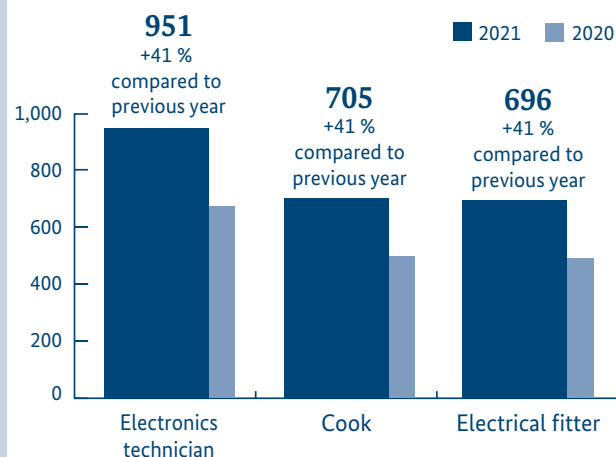

Non-regulated professions

Professions with most applications – regulated

Professions with most applications – non-regulated

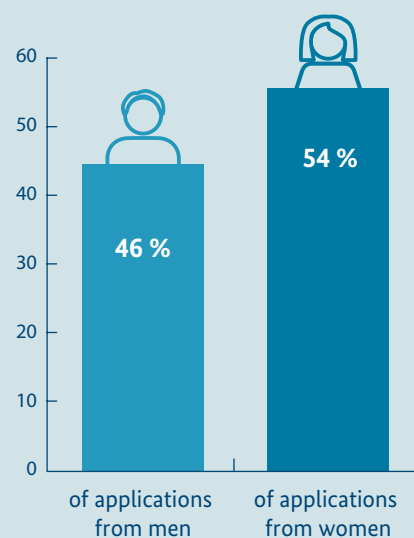

73 percent
of all applications made in
2021 were in a medical
healthcare profession.

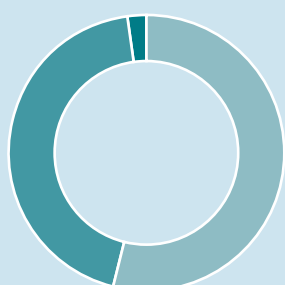

41 percent
of all applications made in 2021
were submitted from abroad.

Women submitted more applications
for recognition in 2021 than men.

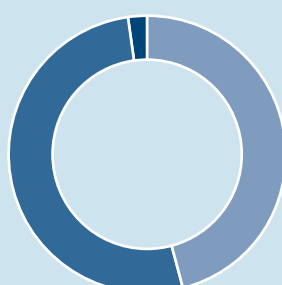

39,327 recognition procedures in 2021 in which a decision was reached

30,924 notices regarding
regulated professions

- 54 % full equivalence
- 45 % resulted in a notice “imposing” a compensation measur
- 2 % negative

8,403 notices regarding
non-regulated professions

- 46 % full equivalence
- 51 % partial equivalence
- 2 % negative
